

BUNKER OPTIMISATION

SAVE MONEY AND MINIMISE RISK WITH OUR ALL IN ONE PACKAGE

We combine our highly experienced agency team, with our launch and bunker survey partners, to give you an all-in-one bunker optimisation package at a discounted rate and via a single point of contact.

Now Servicing:

Fujairah, Singapore, Panama, Strait of Gibraltar, Las Palmas, Tenerife (Canary Islands), Houston, Brazil, Argentina, Peru and Zhoushan - China.

The Benefits to You:

- Significant cost savings by using a single supplier to cover all services
- Costs controlled for potential launch waiting time or extending the scope of the survey to include on/off-hire
- Global communication channel reducing risk and burden
- Security of a trusted partner delivering the highest international standards on QHSSE and compliance
- As your trusted and independent agent we protect your interests, by seeking to identify expensive shortfalls in bunker supply

Additionally, Inchcape Experienced Bunker Surveyors:

- Will use market standard procedures for the survey
- Will guarantee that a surveyor is on-board (subject to weather conditions) for the arrival of the bunker barge
- Transparent with no ties to any fuel supplier and work according to strict ethics and compliance guidelines
- Are all highly trained, experienced surveyors with extensive maritime experience
- Licensed and compliant with local regulations and requirements
