SAFE & COMPETITIVE

LAYUP FACILITIES

The **Port of Duqm** is being developed into an integrated, multimodal logistics hub, encompassing maritime services with fully operational airport and road transportation systems, making it a strategic location in the Arabian Sea beyond the Indian Ocean.

With its deep draft, lengthy quay walls, and expansive basin, the Port of Duqm provides a **world-class, multipurpose commercial gateway** and is poised to become one of the largest ports of the region in the near future.

When required, the Port of Duqm offers **Ship Layup facilities**, with very competitive rates, including the following extensive service and geographical benefits.

- Quick mobilisation for regional activity
- Safe outer anchorage
- Sheltered inner anchorage
- Sufficient berth (Finger pier, commercial quay and liquid jetty) space availability for hot and cold lay ups
- Availability of dry-docking facility within the port
- 24/7 – Pilotage, mooring and unmooring activities
- Availability of all marine services like bunkering, supply of fresh water, removal of sewage water, oily water etc.
- Tank cleaning facilities
- Availability of cranes, forklifts, reach stackers
- Availability of warehouses (open and closed)
- Security level, ISPS – Level 1
