**YOUR GLOBAL MARINE  
SUPPLY CHAIN PARTNER**

# MARINE SUPPLY CHAIN SOLUTIONS

With a global network spanning more than 60 countries, Inchcape Shipping Services is a true strategic partner, offering end-to-end solutions for the efficient handling of your marine spare parts and consumables.

Inchcape provides modular, end to end solutions that replace traditional 3rd party logistics (3PL) processes

We focus on managing your entire supply chain needs from the point of order through to delivery onboard the vessel, enabling your Procurement and Technical Teams to concentrate on other important tasks.

## SUPPLY CHAIN MANAGEMENT

- Our strategic warehouse locations combined with the world's largest port agency network ensure cost-efficient and transparent distribution solutions.
- We take away the hassle of dealing with multiple providers by acting as your single point of control and creating end-to-end visibility throughout the supply chain.

## STREAMLINED LAST MILE

- Getting spare parts and consumables from a warehouse or airport to the vessel is often a complex and expensive process.
- Through our extensive port agency network, we ensure a transparent, efficient and cost-effective last mile process.
- Our port staff are experts in local import and export regulations and have a detailed knowledge of terminals and berths.

**TECHNICAL**

**PROCUREMENT**

**WE SPECIALISE IN THE SUPPLY OF  
GENUINE SPARE PARTS AND EQUIPMENT  
TO THE GLOBAL MARINE INDUSTRY,  
WITH A PARTICULAR FOCUS ON  
EUROPEAN, JAPANESE, KOREAN  
AND CHINESE MANUFACTURERS.**

This helps our customers simplify their active supplier database and manage tail spend more effectively.
