Improvements:

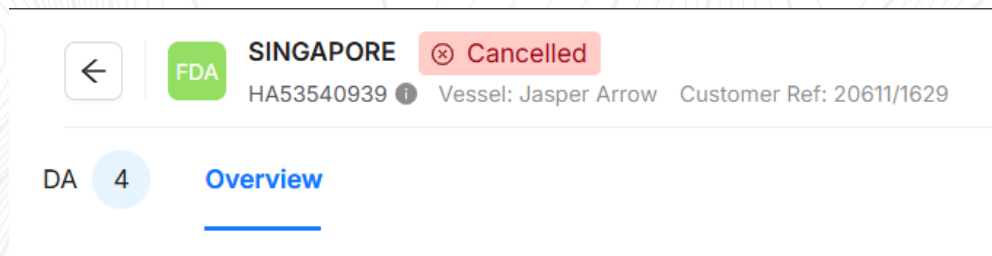

1. Customer reference number added to job details

What was the issue:

The customer reference number associated to a job is not easily accessible, and is only shown in the 'Job Overview' tab.

Fix and Benefit:

The customer reference number has now been added next to the job number at the top of the page when viewing a job, allowing you to clearly find the customer reference number associated with the job.

Resolved Defects

1. Home page tabs directing to incorrect filter

What was the issue:

When clicking on any of the tiles on the 'Home Page' to view specific filters on the 'View all Jobs' page, it would always redirect you to the 'To do' list.

Fix and Benefit:

When clicking on any of the three tiles 'Jobs waiting approval', 'Jobs awaiting 'PDA', 'FDA' 'CE' or 'Queried jobs', you will be directed to the correct filter on the 'View all Jobs' page
