

OneCape DA – External Release notes	
Release:	V12.3.0
Delivery:	16/11/2025

Features & Improvements:

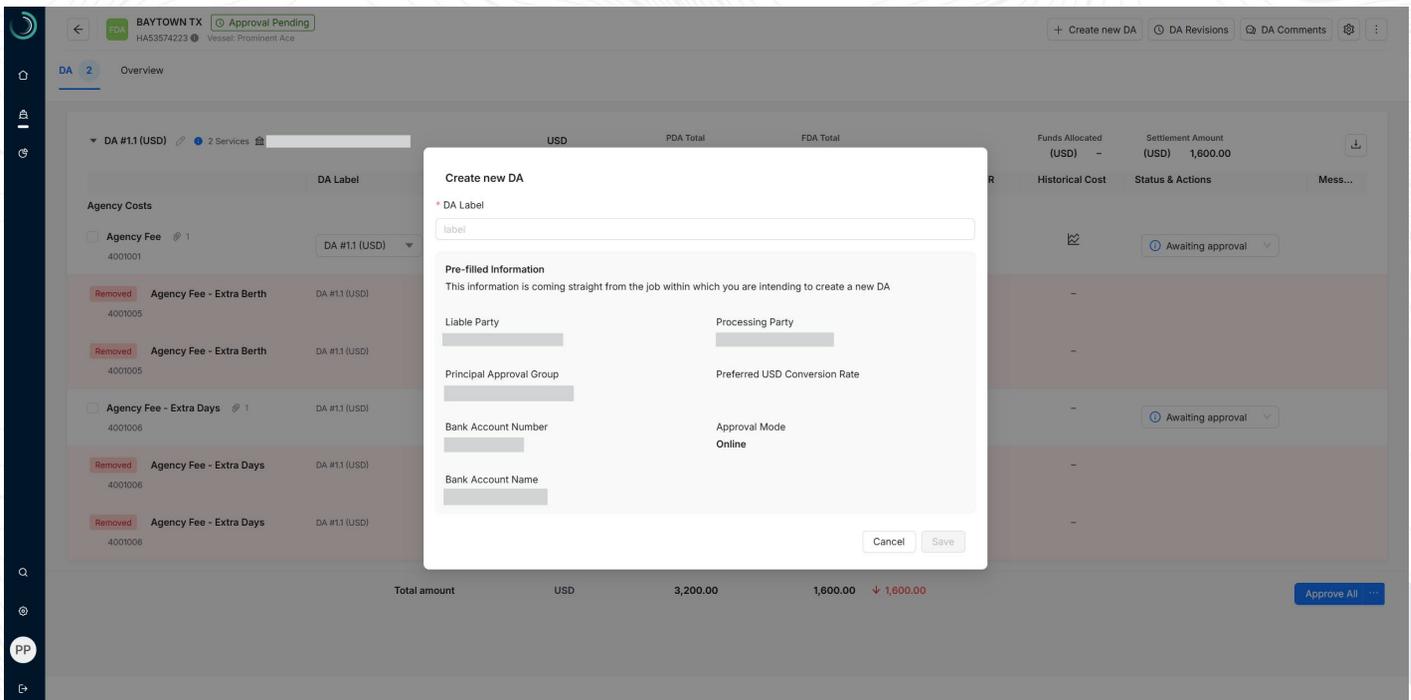

1. Added numbering to invoices on the DA Cover Sheet

DA Cover sheets will now display a document number against the service line that will match against the number on the invoice to clearly identify which service line is related to which invoice.

Husbandry Operations										
Code	Service	Document No.	Local currency	Amount (local currency)	Inbound Currency	Inbound Amount	Amount PDA (USD)	Exchange Variance (USD)	Spend Variance (USD)	Actual Amount (USD)
1001004	Pilot Assistant DIRECT BILL	1-2	SGD	900.00	N/A	N/A	665.17	-	-5.89	659.28
1002004	Standby Tug	3-6	SGD	400.00	SGD	400.00	295.63	-2.62	0.00	293.01
1002005	Tug Assistant DIRECT BILL	1-2	SGD	700.00	N/A	N/A	517.36	-	-4.59	512.77
Husbandry Operations Total: 1,465.06										

2. Add additional DA

This feature will enable you to add an additional DA to the job if the job only has one DA, once adding the new DA you will be able to map services to this DA. Removing the need for the job to be sent back to the hub to add an additional DA.

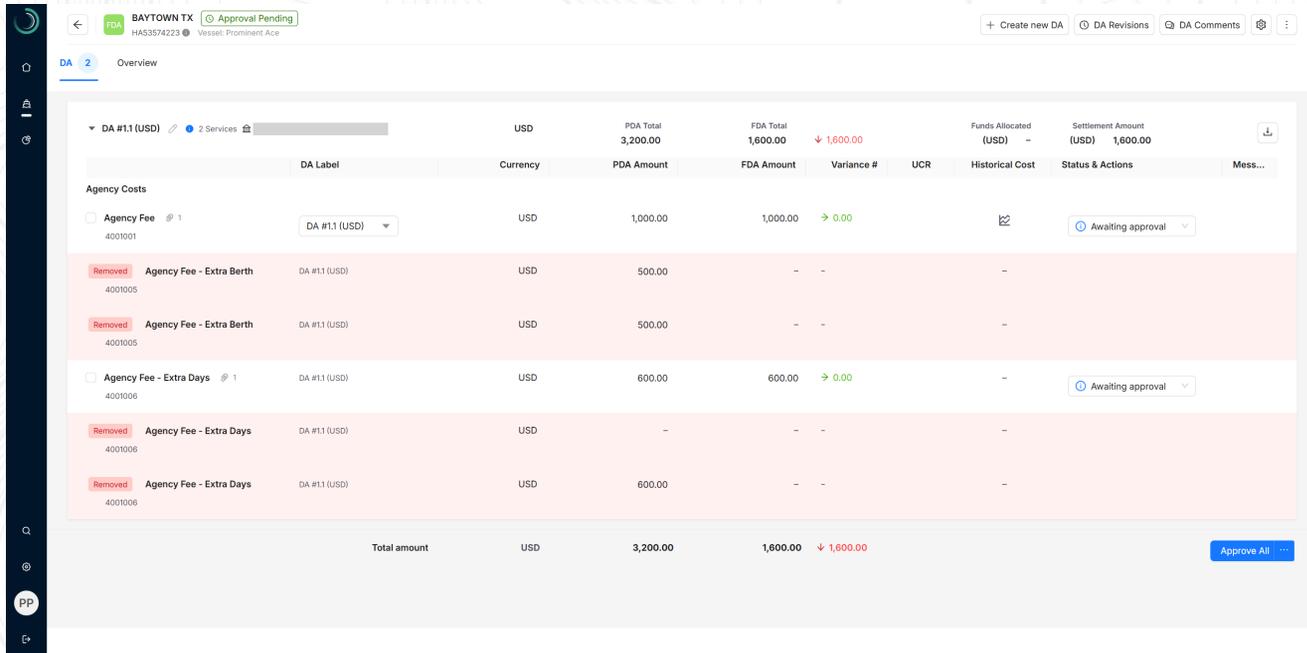

The screenshot shows the 'Create new DA' modal form. The form includes a 'DA Label' field, 'Pre-filled Information' section with fields for 'Liabile Party', 'Processing Party', 'Principal Approval Group', 'Preferred USD Conversion Rate', 'Bank Account Number', 'Approval Mode', and 'Bank Account Name'. The background shows a table of DA entries with columns for DA Label, Agency Costs, and various financial metrics.

3. Show/Hide removed service lines

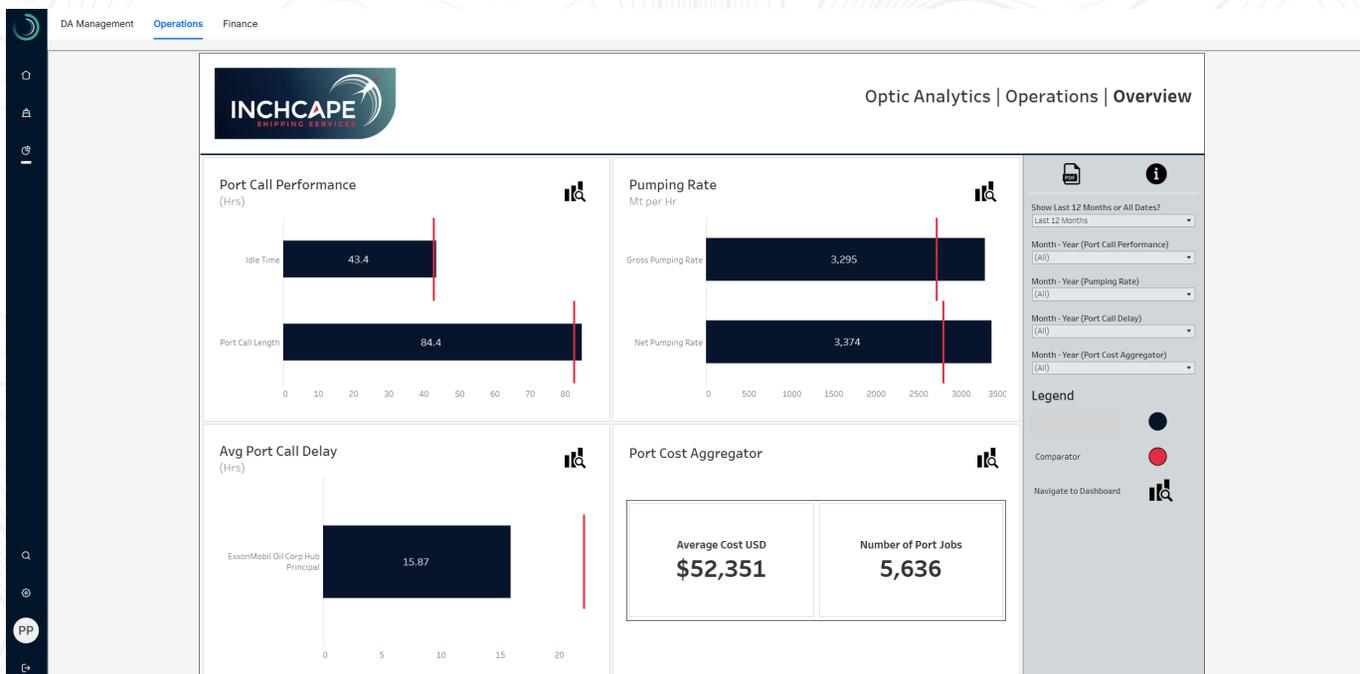

If a service line has been removed at a particular stage of the job, you will now be able to show or hide which service lines have been removed and at which stage. This will now align with the total cost of the previous stage.

The screenshot shows the 'Overview' page for a DA job. At the top, it displays 'BAYTOWN TX' and 'Approval Pending'. Below this is a table of 'Agency Costs' for 'DA #1.1 (USD)'. The table includes columns for DA Label, Currency, PDA Amount, FDA Amount, Variance #, UCR, Historical Cost, and Status & Actions. Several rows are marked as 'Removed' in red, including 'Agency Fee - Extra Berth' and 'Agency Fee - Extra Days'. A 'Total amount' row at the bottom shows a PDA Total of 3,200.00 and an FDA Total of 1,600.00 with a variance of -1,600.00. A sidebar on the left contains navigation icons, and a top right menu includes options like 'Create new DA', 'DA Revisions', and 'DA Comments'.

4. Operational and Financial Reporting

Additional reporting tabs have been added for Operational and Financial reports. Reports will track Port call performance, Pumping rate, Average port call delay, Port cost aggregator, Cash flow trends, DA Turnaround, DA Position and DA Quality out.

The screenshot displays the 'Optic Analytics | Operations | Overview' dashboard. It features several key performance indicator (KPI) cards:

- Port Call Performance (Hrs):** Shows 'Idle Time' at 43.4 and 'Port Call Length' at 84.4.
- Pumping Rate (Mt per Hr):** Shows 'Gross Pumping Rate' at 3,295 and 'Net Pumping Rate' at 3,374.
- Avg Port Call Delay (Hrs):** Shows a value of 15.87 for 'ExxonMobil Oil Corp Hubs Principal'.
- Port Cost Aggregator:** A summary box showing 'Average Cost USD' at \$52,351 and 'Number of Port Jobs' at 5,636.

 The dashboard also includes a sidebar with navigation icons, a top navigation bar with 'DA Management', 'Operations', and 'Finance' tabs, and a right-hand control panel for filters and legends.
