

OneCape DA – External Release notes	
Release:	V12.7.0
Delivery:	22/02/2026

Features & Improvements:

1. Notifications

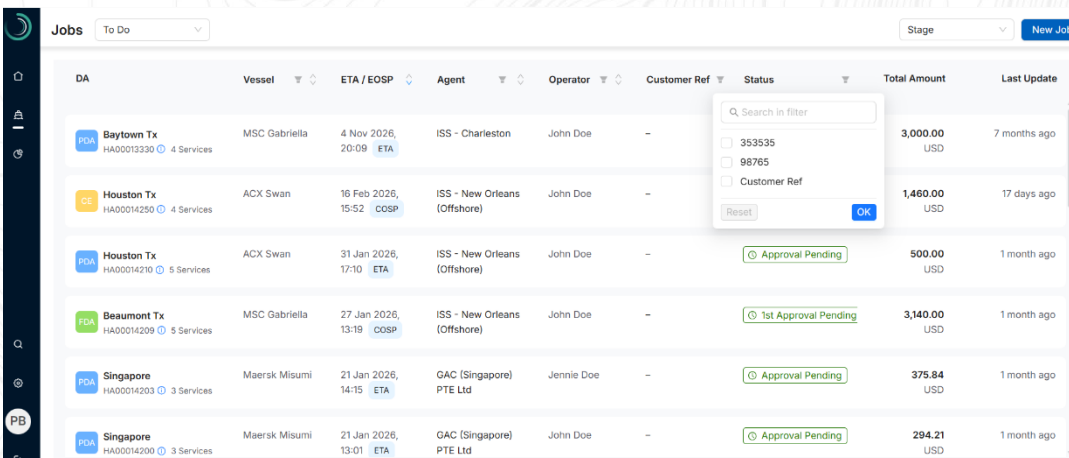

A notification centre has now been added to the navigation menu via the bell icon. This will inform you of jobs in your to do list that have a recent update, notifications will include:

- Query responses from the hub
- DA and service line comments left by the hub
- Jobs now requiring approval
- Cost variation explanations left by the hub

2. Filter by customer reference number

Additional filtering has been added to filter the jobs by their customer reference number on the jobs page.

The screenshot shows the 'Jobs' page in the application. A filter dropdown for 'Customer Ref' is open, showing options: 353535, 98765, and Customer Ref. The table below lists several jobs:
