

REDUCE RISKS WITH SURVEY AND INSPECTION

NETWORK . COMPLIANT . FLEXIBLE .

INCHCAPE SURVEY & INSPECTION OFFERS AN EFFECTIVE WAY TO REDUCE KEY RISKS ACROSS OPERATIONS, COMMERCIAL ACTIVITIES, FINANCES, SAFETY, AND ENVIRONMENTAL CONCERNS GLOBALLY. THE CUSTOMISABLE SOLUTION SUPPORTS CLIENTS IN ACHIEVING OPERATIONAL & COST EFFICIENCY.

WE PROTECT YOUR INTERESTS

We know shipping operations can be critical and risky, and different situations require different solutions. Through Survey and Inspection, we protect your commercial and operational interests by ensuring efficient turnaround times, minimising operational delays, and maintaining regulatory compliance. This approach helps you avoid fines and penalties, while providing confidence that your assets and cargo are secure and meet your quality expectations. Our expert surveyors use the right survey and inspection procedures to spot issues before they happen, so you have peace of mind.

WHAT THIS MEANS FOR YOU

Complete flexibility and customisation:

Shipping operations vary, and so do your needs. Our adaptable service puts you in control, allowing you to choose exactly which surveys and support levels fit your operation.

Clear costs, trusted process:

We ensure transparency and accuracy in cost assessments with detailed time sheets for every survey and inspection. You always know what you are paying for and can rely on the process. We discuss any additional costs with you in real time and obtain your approval before moving forward.

24/7 global execution & escalation:

Our surveyors are available wherever your operations take you, thanks to our extensive geographical reach across key ports and maritime regions. If any issues arise at the port, our survey and inspection team can also liaise directly with local agents to address them efficiently.

A team of qualified inhouse surveyors and maritime experts:

Our S&I team includes Master Mariners and Chief Engineers supported by an expert team of field surveyors who are ex-mariners, Naval Architects, engineers and IBIA-certified professionals. They operate from major shipping hubs worldwide, including Australia, China, Colombia, Japan, Kenya, Kuwait, Mauritius, Oman, Qatar, Saudi Arabia, Hong Kong, Taiwan and Iraq.

Third-party expertise:

We carefully vet our surveying partners to meet Inchcape's standards for service, technical expertise, compliance, and safety. This guarantees the same high level of quality and service everywhere we operate. By letting us handle survey coordination, you save time and effort, while benefiting from expert support and competitive pricing.

HOW THIS HELPS YOU

- **Flexibility & Customisation:** Bundle only the services you need and adjust your package as your operations evolve, helping you stay efficient and cost effective.
- **Trusted, 24/7 Support:** Access round the clock assistance from a team committed to responding quickly and delivering reliable service.
- **Streamlined Communication:** Work through one dedicated contact who manages all requests, ensuring clear, fast, and consistent communication.
- **Reduced Administrative Load:** We handle survey and inspection activities and coordinate with agents and vendors, so your team can focus on core operations.
- **Risk Reduction:** Our surveys help prevent financial and operational disruptions while supporting safety, commercial protection, and environmental responsibility.
- **Transparent Costs:** Enjoy full visibility of pricing at every stage with no hidden charges, giving you better budget control.
- **Informed Decisions:** Clear, accurate survey reports provide the insight you need to understand costs, plan ahead, and make confident decisions.
- **Committed to compliance:** Our rigorous vetting process ensures that we work only with compliant vendors, reducing the risk of bribery.
