

OneCape DA – External Release notes	
Release:	V12.12.0
Delivery:	9/08/2026

Features & Improvements:

1. Advanced Search – Download search results

OneCape DA now allows you to search for the data you need using available search filters and keywords, making it easier to locate relevant records quickly. Once the required data has been identified, results can be exported directly to Microsoft Excel (.xlsx) for further analysis, reporting, or offline use.

2. Advanced Search – Manage columns

You can now customise your search results to better suit individual working preferences. The new column management functionality allows users to show or hide columns and rearrange them within search results and data tables, creating a more personalised and efficient experience.
